Full Stack Developer Run and Engineering (f/m/x)

Tasks

Mercedes-Benz Mobility at a Glance

With around 10,000 employees, Mercedes-Benz Mobility AG specialises in financial and mobility services. The products range from financing, leasing, vehicle subscriptions, rental and fleet management to digital services for charging and payments, as well as insurance and innovative mobility services.

Mercedes-Benz Mobility is a division of Mercedes-Benz Group AG, which also includes the vehicle manufacturer Mercedes-Benz AG, one of the largest suppliers of premium and luxury passenger cars and vans. As a financial services provider, Mercedes-Benz Mobility supports sales of the Mercedes-Benz Group's automotive brands worldwide. In Germany, Mercedes-Benz Bank AG, as part of Mercedes-Benz Mobility AG is one of the leading vehicle financing banks and offers around one million customers financial flexibility as well as deposit business and fixed-interest-rate accounts in the direct banking business.

Mercedes-Benz Mobility lives diversity and inclusion

Diversity and inclusion are not only a concern of ours, we actively shape them. Employees from 100 different nations enrich our culture. Through numerous initiatives, we promote intercultural understanding, respect for one another, openness and willingness to change within the company, as well as non-profit organizations that are committed to this.

WHO WE ARE

The Digital Solution Center (DSC) creates and delivers customer-centric, future-oriented, sustainable digital solutions in its different locations Stuttgart / Berlin, and Beijing. The Digital Lending Model sets the DSC's strategic direction. In a joint effort, Business and IT colleagues work closely with our markets according to the Scaled Agile Framework (SAFe) and challenge the status quo through creative and innovative technology and thereby enable the transformation of Mercedes-Benz Mobility.

As a Full Stack Developer you will be hands-on in the problem resolution and development

of highly scalable enterprise products and in leading teams to deploy and scale solutions to multiple markets. The role includes but is not strictly limited to the following activities and disciplines.

These challenges await you:

- Focus on resolving 2nd and 3rd level defects / bugs / issues for user requests and application logs - Recommend improvements and optimize the system in a way that is scalable and improves the product as a whole

- Introduce new technologies and be involved in upgrading and maintaining the product on up-to-date version of the software (Microsoft .net core and angular)

- Support implemented solutions by conducting root cause analysis on issues and corrective actions

- Assist in developing and improving responsive web applications build on Microsoft technologies specifically .net core (C#) and web api

- Optimise and work with front-end (Angular 5+) and back-end frameworks in the Microsoft .net landscape

- Working with database and data storage models

- Participate in the analysis, planning, and execution of IT-enabled business solutions

- Be an active member in a product focused scrum team and work closely with UX/UI designers and Solution Architects

- Investigate and recommend new and emerging tools and technologies to assist teams in achieving outcomes

Qualifications

What you bring to the table:

- Bachelor Degree in Information Technology, Computer Science, Software Engineering or comparable

- 5+ years' experience in software development projects

- Proven track record in developing and implementing digital projects

- Project management experience with the ability to work independently with little supervision

- Able to communicate – in writing, verbally, and visually; and ability to reduce complex subjects to succinct information

- Ideally Agile Product Owner/Scrum Master certified

- Fluent written and spoken English

- Automotive, Finance, Insurance or Banking Industry domain knowledge is a definite plus

Personal skills:

- Strong interpersonal skills to interact with diverse teams

- Strong solution orientation and problem solving skills

Additional information:

It is a permanent position.

It doesn't work completely without formalities. **When sending your online application, please attach your CV, an individual letter and any references you may have (max. 5 MB) and mark your application documents as "relevant for this application" in the online form.**

We particularly welcome online applications from candidates with disabilities or similar impairments in direct response to this job advertisement. If you have any questions, you can contact the local disability officer once you have submitted your application form, who will gladly assist you in the onward application process: sbv@mercedes-benz.com

If you have any questions regarding the application process, please contact HR Services by e-mail at hrservices@mercedes-benz.com or the chatbot on our career page via the plus symbol.

Please understand that we no longer accept paper applications and that there is no right to get your documents returned.
